## White wines

### CAP CLASSIQUE

Suitable for any time of the day, there's always an excuse for a celebration! Champagne is derived from France where the original "Bubbly" came from, known as Cap Classique in SA. Delicious shortcake flavours with hints of fruitiness on the nose & a dry finish. Cap Classique may be made from three grape varieties: Chardonnay, Pinot Noir & Pinot Meunier. Cap Classique produced traditionally, undergoes a second fermentation, where sugar & yeast are added to the bottled wines, then resealed. Carbon dioxide is trapped inside the wine under pressure & is released as bubbles "mouse," when the Cap Classique is served.

Both wines rely on the traditional French fermenting process, which is labour intensive, time consuming and entirely reliant on handpicking only the best grapes to ensure exceptional quality and optimal purity of fruit.

This is what makes them so sought after and valuable. Cap Classique is South Africa's bubble equivalent to champagne.

**Brut** – Sparkling Wine that is dry or dryish in taste.

**Blanc de Blancs** – "White of Whites"; White wine made from only white grapes.

**Demi-Sec** – Fully Sweet

**NV** – Refers to Non Vintage

### CHAMPAGNE

Tribaut Brut Origine (Colmant)  
 Tribaut Brut Rosé (Colmant)  
 Le Mesnil Blanc de Blancs (Colmant)

### SPARKLING WINE

You can spot the difference between the two if you look closely at their bubbles; a Cap Classique will have tiny bubbles with refined effervescence while Sparkling Wine has a larger, coarser fizz. Sparkling wine by comparison is created by a process which uses artificial carbonation on the production line resulting in a distinctly different drinking enjoyment.

Raka Happiness  
 M-A-N Family Wines Chenin Blanc  
 Doolhof Estate Chardonnay

### METHOD ANCESTRAL / PÉT-NAT

The Méthode Ancestrale is the oldest method of making sparkling wine, where the wine is bottled before fermentation is complete, allowing it to finish in the bottle and create carbonation without added sugar or yeast. This "one-step" fermentation results in fine bubbles, a cloudy appearance due to sediment from the lees (spent yeast), and a characteristic fresh, vibrant style of wine

Wildeberg Strange Kompanje Unlimited Pét-Nat

### RIESLING

The 'Riesling' was an official SA synonym for the inferior **Crouchen Blanc**, also known as Paarl Riesling. Paarl Riesling is light to medium bodied wine. **Riesling** is a great aromatic white wine, semi-sweet to off-dry. The perfect food companion.

### SEMI-SWEET & OFF-DRY

Zeven Bouquet Blanc

### SAUVIGNON BLANC

Translated to "wild white," Sauvignon Blanc is the most popular white cultivar in SA. Distinct regionally-based styles. From Darling there are dusty, green peppers but a flinty minerality creeps in as you move south through Durbanville & Constantia to Agulhas where it becomes seashells & ozone. In Stellenbosch & Robertson, a rich tropical fruit is never far from the surface.

### CHENIN BLANC

Widely cultivated variety in the Cape, and characterized by its versatility. Chenin Blanc produces good natural wines covering the whole spectrum from sweet to dry, as well as sherry & sparkling wine. Fruity flavours. This is the "work horse" of SA white grapes. Often distilled into Brandy.

### WHITE BLENDS

SA legislation requires that at least 85% be present of the stated variety. Blends may only name component parts if those components were vinified separately, prior to blending. Should one of the blend partners be less than 20% of total composition, all the blend partners % of total composition must be supplied.

A dessert wine fortified with unaged brandy spirit.

Fairview Sweet Red (750ml)  
 The Saldanha Wine & Spirit CO. Cape Vintage Port (500ml)  
 The Saldanha Wine & Spirit CO. Hanepoot Medium Cream (500ml)

### STRAW WINE

Straw wine, or raisin wine, is a wine made from grapes that have been dried to concentrate their juice. Straw wines are typically sweet to very sweet white wines, similar in density and sweetness to Sauternes but potentially sweeter. They are capable of long ageing. An older process and suitable for warm climates. Under the classic method, after a careful hand harvest, selected bunches of ripe grapes will be laid out on mats in full sun. Under less labour-intensive versions of the technique, easily portable racks might be used instead of mats or nets, or the grapes are left lying on the ground beneath the vines, or even left hanging on the vine with the vine-arm cut or the stem twisted. Technically speaking the grapes must be cut off from the vine in order for the wine to be a 'straw wine'.

## Red wines

### ROSÉ

**Rosé** - Pink in colour. Mostly made from red grapes whose skins are left on the must during fermentation. The juice is then run off the skins & treated the same way as white wine. Rosé can be dry to semi-sweet and vary greatly in the level of residual sugar.

Wildeberg Coterie Cinsault

### PINOTAGE CELEBRATING 100 YEARS

Locally bred cultivar, developed from a cross of Pinot Noir & Hermitage by viticulturist Professor Abraham Izak Perold in 1925. The first bottles appeared in 1961. It is a light to medium-bodied wine, unique to SA! In the early 1990s, as Apartheid ended & the world's wine market was opening up, SA winemakers ignored Pinotage in favour of more internationally recognized varieties like Shiraz. Towards the end of the 20th century, the grape's fortunes turned & by 1997 it commanded higher prices than any other SA grapes.

### CABERNET SAUVIGNON

Liveliness in the mouth & a degree of richness, yet usually finishes with firm astringency. Blackcurrant flavour with a hint of mint & cedar. King of the "Noble" grapes, famous for its use in a Bordeaux Blend. It develops well with age into spicy, full, complex wines.

### MERLOT

Grapes are identified by their loose bunches of large berries. The colour has less of a blue/black hue than Cabernet Sauvignon grapes, a thinner skin & fewer tannins. In food & wine pairings, the diversity of Merlot can lend itself to a wide array of matching options. Slightly herbaceous overall in both aroma & taste.

### PINOT NOIR

Called the heartbreak grape because it is difficult to cultivate. In SA it's the second most popular restaurant red thanks to a perception of elegance. It may be the toughest grape to grow, but the effort is worth the constant care & investment. Fruit forward red wine.

Ataraxia Young Blood  
Kara-Tara  
Ataraxia  
Groote Post Inheritance (NEW)  
Ataraxia Pinot Noir - Whole Cluster

### MALBEC

Malbec grapes tend to have an inky dark colour and robust tannins. It is a thin-skinned grape and needs more sun & heat than either Merlot or Cabernet Sauvignon to mature. Malbec is known as one of the 5 cultivars to make a Bordeaux blend. It is increasingly celebrated as an Argentinian varietal wine and is being grown around the world.

Fairview  
Raka Estate  
Doolhof Estate SV  
Doolhof Estate Bloedklip

### SANGIOVESE

Is a red Italian wine grape variety whose name derives from the Latin Sangius Jovis, "The blood of love". Young Sangiovese has fresh fruity flavours of strawberry and a little spiciness, but it readily takes on oaky, even tarry flavours when aged in barrels. Sangiovese was already well known by the 16th century.

Fairview La Capra  
Raka Estate

### GRENACHE NOIR

Wines made from Grenache tend to lack acid, tannin and color, and it is often blended with other varieties such as Syrah, Carignan, Tempranillo and Cinsaut. Grenache is the dominant variety in most Southern Rhône wines, especially in Châteauneuf-du-Pape where it is typically over 80% of the blend.

*Single vineyard*

'Single Vineyard' or 'SV', is a term used in the wine industry referencing that the wine in the bottle comes from a single vineyard site. This means that the particular vineyard, and the grapes grown there, have been isolated from all other vineyards due to their superiority.

*Please Note*

There will be vintage changes during the course of the year.  
Please check with Nell-Marié.

## COLMANT CAP CLASSIQUE

With a passion for the tradition and the excellence of impeccably crafted Cap Classique wines, Jan and Isabelle Boone have acquired Colmant Cap Classique and Champagne. They are experienced entrepreneurs and business executives known for their commitment to quality, local sourcing and craftsmanship. A bright new dawn awaits Colmant with Jan and Isabelle beginning to unlock a new dimension to this proud winemaking heritage.

At the helm of this new era is Paul Gerber, a South African visionary winemaker whose expertise and passion have been instrumental in shaping the success of Colmant Winery. "We are thrilled to embark on this journey with Paul Gerber," says Jan Boone. "Our vision is to build upon Jean-Philippe Colmant's foundation, elevating Colmant to greater heights in quality and sustainability. We believe in the blend of expertise, collaboration, and innovation within the team." Isabelle Boone continues "By investing in our team, products, processes, and partnerships, we aim to ensure that Colmant Winery remains the standard for excellence in South African Cap Classique".

## FAIRVIEW WINES

Charles Back strives to ensure that Fairview is constantly driven by three key values, authenticity, heritage and ensuring that ingenuity perpetually flows from the soil to the cellar. Fairview embodies quality, well crafted wines, not seeking to be pretentious, but never disappointing the serious wine enthusiast. The wines are not flashy or over the top, but rather offer fine structure, ripe rich fruit and elegant complexity. Fairview is a perfect accompaniment to a fine meal, designed to bring the best out of an evening.

## ROODEKRANTZ WINES

Roodekrantz Wines is a dynamic and celebrated name in South African wine, driven by a passion for quality, authenticity, and innovation.

**NEW**

With a strong focus on Old Vine Project - certified vineyards, Roodekrantz brings heritage vines to life through wines of depth, intensity, and unmistakable sense of place. These venerable vineyards, shaped by decades of seasons, demand patience, precision, and deep respect - a responsibility the team embraces with humility and dedication. There is something profoundly humbling about working with old vines. They carry decades of history in their twisted trunks and weathered bark. And while their beauty is undeniable, so too is the responsibility they demand. Working with old vines can be daunting; there is always a quiet sense of reverence at the start of each season. They are delicate yet resilient, temperamental yet generous. They require patience, intuition, and unwavering care. But when nurtured with respect, the reward is extraordinary.

Old vines produce naturally lower yields, concentrating flavour, structure, and soul into every berry. The resulting wines possess remarkable depth, layered complexity, and a sense of place that cannot be replicated. They are not simply wines - they are stories of endurance, character, and legacy. Rooted in sustainable viticulture and guided by meticulous cellar craftsmanship, Roodekrantz balances tradition with innovation.

Each release reflects the authenticity of its terroir while delivering refinement and elegance in the glass.

## Old Vine Project

Wines that are made from old vines (vines that are 35 years and older) are a tribute to the grower's love of the land. They exist because of the people who touched and tended them over many years.

They reflect the terroir, landscape, and people who lovingly tend these vineyards across the Cape providing us with a more textural finish. Producers can certify old vine vineyards and wines with the Old Vine Project (OVP) and apply Certified Heritage Vineyard seals to their wine bottles, identifying the planting date of the vineyard from which the wine was made.

The vineyards are verified from South African Wine Industry Information System's (SAWIS) extraordinary vineyard database that dates back to 1900.

## RIJK'S ESTATE

Rijk's Wine Estate nestled in the picturesque Tulbagh Valley, just 120 kilometres northeast of Cape Town, is a family-owned wine estate consistently producing award winning wines.

The story begins with Neville Dorrington, a lover of good food and a collector of good wines, a man driven by his dreams, whose journey led him to the shale-rich slopes of Rijk's (1996) where he came across 137 hectares of virgin soil that were never cultivated.

The directions of the slopes and analysis of the vertical shale soils revealed the potential for low yielding, high quality grapes. The Mediterranean climate, gentle summer winds and low-yielding shale soils make it an ideal terroir for growing Chenin Blanc and Pinotage.

The estate thrives on sustainable practices and a vision for the future. Their commitment to ethical farming and their meticulous cellar practices has resulted in wines enjoyed by connoisseurs' word-wide

# History OF SA WINE

1761

Exporting takes off

The First Constantia wines are exported to Europe.  
By 1788 our dessert wines are the toast of the town.

1886

Disaster strikes

Phylloxera wipes out millions of vineyards  
all but killing the industry.

1925

Pinotage is born

Professor Perold successfully cross-pollinated  
Hermitage (Cinsault) with Pinot Noir to  
develop SA's own grape variety, Pinotage.

1959

Semi-sweet Lieberstein is launched

By 1964 it's the world's number 1 selling bottled wine  
at 31 million litres.

1971

Stellenbosch Wine Route

The first wine route in the country  
was founded.

1975

Sold to the highest bidder

The first Nederburg Rare Cape Wine Auction is held.

1995

The Pinotage Association

was formed.

2000

The Chenin Blanc Association

was formed.

2010

NLR-Wines

was established.

2013

Exporting

We export a record-breaking 525 million liters of SA wine.

2020

New - Cultivar / **ASSYRTIKO** Planted

A wine estate in Stellenbosch set to plant Assyrtiko, the grape associated  
with the Greek island of Santorini, the soils famously igneous, the climatic  
conditions hot and windy. A site roughly approximate to Santorini - the  
soil consisting of broken-up granite rock, the aspect north-facing, the  
South-eastern wind a regular phenomenon - and just one hectare will  
be planted for now.

Covid

The South African wine industry has been  
severely weakened with the onset of COVID-19.

1659

The first wine

was produced in the Cape. Van Riebeeck  
wrote in his diary on 02 February:  
"Today, praise be to God, wine was made  
for the first time from Cape grapes."

1822

International Status

Of wines consumed in Britain, 10% are South African.

1918

KWV is Established

KWV (The Ko-operatieve Wijnbouwers Vereniging  
van Zuid-Afrika Beperkt) is founded.

1926

Screw Cap

The screw cap was introduced by White Horse Distillers in 1926, an  
innovation which doubled the sales of the brand in six months, and  
this was further developed by White & Mackay, who, in 1960,  
introduced a plastic screw cap which doubled as a measure or small cup.  
However, in the last 50 years, screw caps have been widely used on  
wine bottles. The first screw caps appear on white wine bottles.

1961

The first Pinotage

A 1959 Pinotage under the Lanzerac label was marketed.

1971

Let's Celebrate!

Our first Méthode Champenoise-style  
sparkling wine, Kaapse Vonkel, is made.

1991

Veritas Awards

Wine appreciation goes mainstream with the inaugural Veritas awards.

1999

Cape Winemakers Guild

was founded.

2002

Old Vine Project

In 2002, the Old Vine Project in South Africa started searching for old vines,  
and today there are about 3700 hectares of Old Vine vines and ten vineyards  
that are even older than 100 years. Almost 2000 hectares are planted with  
the most widely grown variety in South Africa, Chenin Blanc.

2013

210 Olympic Pools of wine exported.

2014

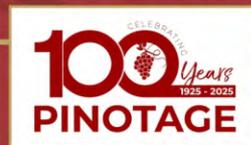

100 000 Rugby Fields

in SA planted under vine for wine.

2021

Celebrating the golden

50-year anniversary of Cap Classique

2025

Celebrating 100 years  
of Pinotage
